

## KEYNOTES & EVENTS

**Developing People. Driving Strategy.  
Delivering Growth.**

## **We don't just speak. We hold the room.**

At Lumina, we don't deliver performances. We design presence. Our speakers are facilitators, trainers, and strategists who draw from lived experience and deep sectoral work across business, government, and civil society.

We create space for discomfort, dialogue, insight, and shift. Our sessions aren't one-way. They're grounded, intelligent, emotionally fluent — and driven by impact, not ego.

## **We lead talks that start movements, not just conversations.**

# Where Our Speakers Deliver

Our talks are booked for:

- Corporate leadership offsites
- Board retreats and strategy days
- Staff away days and learning festivals
- Charity and social impact dinners
- International conferences and digital convenings
- Community and peer-led events
- Webinars, panels, and roundtables
- Team culture workshops and resilience resets

# Why This Work Matters

In a noisy world, well-delivered talks cut through. But more than that — the right voice at the right moment can shift the direction of a team, a board, or a community. We build talks that unlock reflection, inspire action, and stay with people long after the applause fades.

“

"The energy in the room changed the moment she began speaking."

“

"I didn't just learn something. I saw myself differently after that session."

“

"Our whole team kept referencing it for weeks."
